

Introduction to the Phab Pack

Welcome to the Phab Pack!

This pack is a valuable resource for anyone thinking about setting up or already involved in a Phab Club or Project.

Do not be daunted by its size. It is divided in sections, which can be read on their own. Of course, if you fancy a good bedtime read you could take the whole Phab Pack to bed with you – but be warned! You could be there for several days!

The Phab Pack is designed to be used as a reference tool. Got a query about insurance? Turn to Section 9 (Affiliation Policy & Procedure and Insurance). Hopefully your question will be answered! If not, you will find details about who can solve the problem. If you simply can't find the answer just contact Phab England – we tell you how in Section 1 (Phab Contact Details).

Phab is sure you will find the Phab Pack useful and hope that you will even enjoy reading some parts of it. There is some serious stuff included such as Section 7 (Phab's Child & Vulnerable Adult Protection Policy & Good Practice) which is vital information.

The Phab Pack is also a 'Work in Progress'! It will be updated regularly both in printed form and on Phab England's website. Sometimes alterations will be due to changes in the law; sometimes because there is a demand for particular information. So if we have missed anything or there's something you would like included – Get in touch!
